PROFILE

- Motivated **Computer Science** student with hands-on experience in _AI, ML_, and _web development_. Skilled in programming and problem-solving. Eager to leverage technical skills and passion for innovation in a dynamic team setting.

PROJECTS

Object Detection System – Developed a real-time object detection system using Python, YOLO, and scikit-learn. Integrated it into a web application with HTML, CSS, and JavaScript for seamless user interaction.

Healthy Diet Recommendation System – Built a diet recommendation system using machine learning and YOLO. Designed a responsive web interface for personalized meal suggestions and optimized backend-frontend interactions.

Barber Go – Developed an online barber booking system with real-time appointment scheduling. Integrated a user-friendly interface for seamless booking and payment.

EDUCATION

Bachelor Of Technology, Pranveer Singh Institute Of Technology   Kanpur

2022 — Jul 2026
